TECHNICAL SKILLS

Programming Languages: C/C++, C#, Java, Python, Golang

Technologies: Spring Boot, Kubernetes, Docker, Azure

Frontend Development: AngularJS, ReactJS, HTML, CSS, Javascript

Miscellaneous: Datastructures, Algorithm, Sql Server, MongoDB

Soft Skills: Leadership, Problem Solving, Communication

WORK EXPERIENCE

Associate Engineer

Orion Innovation, Kerala, India

Jan 2024 - Present

- Designed and developed 2 responsive websites using the AngularJS framework. Ensured code quality through unit testing and continuous integration practices
- Built RESTful Web APIs using the .NET framework to power the backend of web applications. Designed and implemented data models, repositories, and services to interact with a SQL Server database
- Developed and executed smoke test suites to validate the basic functionality of web applications

.NET Developer intern

Orion Innovation, Kerala, India

March 2023 - May 2023

- Developed a solid understanding of C# programming language, Entity Framework for database interactions, and integrating front-end and back-end components for seamless functionality.
- Learned to design and implement RESTful APIs for data access and manipulation, and utilized Angular's component-based architecture and TypeScript to create dynamic and responsive user interfaces.

Software Developer Intern

Apps Team Technologies, Kerala, India

July 2023 - September 2023

- Gained hands-on experience in developing web applications using ASP.NET Web API and Angular frameworks. Learned to design and implement RESTful APIs for data access and manipulation.

PROJECTS

- **JSONFormatter**, Developed a JSON formatter application using Angular, PrimeNG for UI components, and Ace Editor for code editing, showcasing proficiency in integrating multiple technologies to create a user-friendly tool. [Try it!](#)
- **Event Booking Application**, Utilized ASP.NET Web API for creating RESTful APIs, Angular for building the front-end user interface, and MS SQL Server for data storage and management, demonstrating skills in designing and implementing a scalable and efficient event booking system. [Github](#)
- **Farmzone**, Developed an e-commerce application tailored for farmers, leveraging ASP.NET and SQL Server to create a comprehensive platform for selling agricultural products online. Designed and implemented features such as product listings, shopping carts, and order management. [GitHub](#)

EDUCATION

College Of Engineering, Chengannur

Kerala, India

B.Tech, CSE

2019 - 2023

K.K.Kunjupillai Memorial GHSS

Alappuzha, Kerala

+2, Biology Science

2017 - 2019

EXTRACURRICULAR ACTIVITIES

- **Sports Captain** in college Sports - 2022
